

satisfy themselves, before executing leases, that the prospective lessors have an interest in the real estate which will assure the validity of the lease. Where leased lands are used as a site for construction, the land records of the county will be examined by a staff attorney familiar with land title records, who will execute a certificate that he has examined the said records and that title is vested in the lessor, subject to the infirmities, liens and encumbrances noted in the certificate. In lieu of such examination, a certificate from the Register of Deeds, County Recorder or other qualified officer is acceptable. If considered advisable in unusual cases, title evidence may be obtained from commercial sources.

(g) *Outstanding Rights and Damages.*

(1) Where the land is subject to outstanding oil, gas, mineral, or similar interests, the Division or District Engineer will determine, from the appropriate command, in advance of the consummation of the lease, whether the continued exercise of the mineral or outstanding rights will interfere with the contemplated use of the premises.

(2) Where buildings, structures, or growing crops are located on land to be leased, a determination will be made by the Division or District Engineer, in coordination with the appropriate command, as to whether they will interfere with the use of the premises.

(3) Where the lessor will not be permitted to harvest crops or remove improvements and timber which will be destroyed by the Government, the appraised value thereof will be determined, and such amount will be included in the rental for the initial term of the lease, together with an express provision relieving the Government of restoration.

(4) Leases of land for bombing, artillery, rifle ranges, and other extraordinary usage will specify that the leased premises are to be used for such purpose, and an effort will be made to include in the lease a provision waiving restoration and claims for damages, particularly where the premises are wastelands or unproductive.

(5) Where the lessor will not consent to a waiver of restoration, the estimated value of such damage, if it can be determined in advance, will be in-

cluded in the rental for the initial term of the lease, and the lease will contain an express provision relieving the Government from responsibility for restoration.

(6) If restoration is not waived, and the damages cannot be determined in advance, a provision may be included in the lease to the effect that the rental payments do not include compensation for damages arising from the use of the premises for the purpose leased and that, upon termination of the lease, the damages, mutually determined, will be paid by supplemental agreement to the lease. In event the amount of the loss or damage cannot be mutually determined, the lessor may file a claim for the alleged loss or damage in accordance with subpart H.

(h) *Services and Utilities.* Services, such as janitorial, heat, air conditioning, light and water, should be included in leases for building space wherever possible. Whether services are paid for as part of the rent or by a service contract, the time period for furnishing heat, air conditioning and light, i.e., usual business hours, 24-hour basis, Saturdays and Sundays, should be clearly stated.

(i) *Other Contracts.* The negotiation and execution of contracts not involving an interest in real estate are the responsibility of the services concerned.

(j) *Condition Surveys.* (1) Whenever possession of any premises is acquired by lease or other agreement, or by condemnation for a term of years, the Division or District Engineer will cause a survey and inspection of the condition of the real and personal property to be made as of the time the Government takes possession.

(2) The survey and inspection required above will be made jointly with the lessor or his duly authorized representative. The report will be signed by both parties.

(3) The initial survey report must be made with great care since it is the basis for future restoration claims by a lessor. The use of photographs is encouraged. Full explanatory data covering condition of the premises will be added to the report if, in the opinion of the Chief, Real Estate Division, a useful purpose will be served thereby. The
